

**HS MAST SLIDER SYSTEM
RACE**

HS RACE

This system is designed for out-and-out racing boats, with carbon fibre masts, large mainsail and overall length of 50-60 ft.

For boats from 50 to 60 ft

Mod. 601.120/R TRACK

The extremely light (340 gr/m) hard black anodised aluminum profile is very small (only 11x22 mm). It is fixed directly to the mast with 5 mm screws every 60 mm or 30 mm (without inserts) and is available in 3, 4 and 6 m sections.

SPECIAL DRILLING

The high load-bearing sections of track at the headboard (top of the mast and reefing) are supplied on request with double holes for screw fixing every 30 mm.
